Get LaTeX

1. Install TeX Live[1] or MacTeX[2].
2. Install TeXworks[3].

---

[1] http://tug.org/texlive
[2] http://www.tug.org/mactex/2009
[3] http://code.google.com/p/texworks

Type LATEX

1. Open TEXworks.
2. Set the typeset to `pdfLaTeX`.
3. Save a new file as `hello.tex`.

Type LaTeX

4. Type the following code:

```
\documentclass{article}
\title{Hello World}
\begin{document}
\maketitle
\end{document}
```

Compile LATEX

1. Click the green typeset button (▶).
2. The LATEX code compiles to a PDF file.
3. A preview appears.
