Little Tut.*

Andrew Pennebaker

September 22, 2010

Get LaTeX

1. Install TeX Live[1] or MacTeX[2].

2. Install TeXworks[3].

Type LaTeX

1. Open TeXworks.

2. Set the typeset to `pdfLaTeX`.

3. Save a new file as `hello.tex`.

4. Type the following code:

```
\documentclass{article}
\title{Hello World}
\begin{document}
\maketitle
\end{document}
```

Compile LaTeX

1. Click the green typeset button ( ).

2. The LaTeX code compiles to a PDF file.

3. A Preview appears.
